

ARRIVAL NOTICE SETTINGS

GPS Trackdown can automatically send an Arrival Notice to your contact when you set your destination address (e.g. a hotel at the beach). The notice can be sent by Email or by SMS Text. Set it and forget it.

You can test your settings to make sure they are correct or disable this feature at any time.

1. Check to enable Arrival Notices
2. Select a Contact or enter an email address or mobile number
3. Select a Contact for your destination or enter the postal address
4. Select the method for sending (i.e. email or sms text)
5. Optionally test your settings
6. Select the check button to save your changes
