

FIND ME SETTINGS

Find Me can enable your 'In Case of Emergency (ICE)' contact to locate you in an emergency. Your location can be sent by Email or by SMS Text. Use Find Me to help find a missing person or locate a lost phone.

You can test your settings to make sure they are correct or disable this feature at any time.

1. Check to enable Find Me
2. Your contact will automatically be set to ICE
3. Select the method for sending (i.e. email or sms text)
4. Optionally test your settings
5. Select the check button to save your changes

Choose a method for sending to ICE

Find Me can only be triggered by your ICE contact. Your ICE contact can Text you the word ***trackdown*** or ***call your phone 5 times with missed calls within 5 minutes***. GPS Trackdown will respond by sending ICE your current location. If Share By email is selected, your location history will be included. *Be prepared, test the process before you need to use it.*
